

# Hustedt Jewelers

We are entering a new era in our manufacturing at Hustedt Jewelers. We have maintained the largest jewelry repair and manufacturing facility in the area for over 3 decades, largely out of the public eye. With our upcoming remodel, we will be putting an additional working shop area in the front of our store.

We will continue to offer complete manufacturing services, from design to finished product as well as appraisals by a graduate gemologist, and quality repairs and restoration with written guarantees.

The 31 rings made for the wrestlers, from design to finish were completed in less than 2 weeks in our store in Gibson City.

**Proudly Made in Gibson City Illinois**
